

Floor bed

Come una linea orizzontale tracciata dalla parete al centro della stanza, il letto Legri sembra librarsi in aria, trasmettendo una sensazione di sospensione e leggerezza. Merito dei piedini rientranti rispetto alla struttura, che assicurano stabilità senza farsi notare.

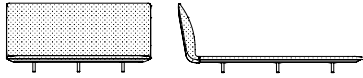

Like a soft horizontal line highlighted by the wall, in the middle of the room the Legri bed appears to hover in the air, evoking a feeling of suspension and lightness. This is achieved with the feet, which are recessed in relation to the bedframe, ensuring stability without being noticed.

Wie eine waagrechte, von der Wand in die Mitte des Raumes reichende Linie scheint das Bett Legri in der Luft zu schweben und vermittelt ein Gefühl von Schwerelosigkeit und Leichtigkeit. Ein Verdienst der im Vergleich zur Struktur zurückversetzten Füße, die Standfestigkeit gewährleisten, ohne aufzufallen.

Comme une ligne horizontale tracée depuis le mur jusqu'au milieu de la pièce, le lit Legri semble flotter dans l'air, en transmettant une sensation de suspension et de légèreté. Cela est possible grâce aux pieds rentrants par rapport à la structure du lit, qui en assurent la stabilité sans être vus.
