Bed

^{IT} Frutto di una continua evoluzione estetica e tecnica, Steel offre soluzioni leggere e sospese su due sottili gambe in acciaio, che garantiscono totale stabilità. Un solido telaio sostiene un innovativo pianale che rientra rispetto al materasso e, lasciando il perimetro del letto totalmente libero e senza ingombri superflui, facilita il movimento nello spazio della camera da letto e la pulizia. Un sistema di testiere a filo materasso self standing o ampie testiere accessorabili a parete in diversi materiali, risolvono ogni esigenza estetica e di interior.

^{ES} Fruto de una continua evolución estética y técnica, Steel ofrece soluciones ligeras y suspendidas sobre dos finas patas en acero que garantizan total estabilidad. Un sólido armazón sostiene un innovador somier que no sobresale del colchón dejando así el perímetro de la cama totalmente libre y sin estorbos superfluos, lo que facilita el movimiento en el espacio del dormitorio y la limpieza. Un sistema de cabeceras a ras del colchón free-standing o amplias cabeceras de pared equipables y en diferentes materiales resuelven cualquier exigencia estética y de interiorismo.

^{DE} Als Ergebnis einer kontinuierlichen ästhetischen Entwicklung bietet Steel leichte und wandhängende Lösungen auf zwei schlanken Beinen aus Stahl, die höchste Stabilität gewährleisten. Ein solides Gestell trägt eine innovative Liegefläche, die vollständig unter der Matratze verschwindet und den Bettrand völlig frei und ohne unnötige Hindernisse lässt, was die Bewegung und Reinigung im Schlafzimmer erleichtert. Ein System von freistehenden Kopfteilen, die bündig mit der Matratze enden, sowie von wandmontierten und großzügig bemessenen Kopfteilen aus verschiedenen Materialien, die mit einer Reihe von Zubehörteilen ausgestattet werden können, bieten Lösungen für jegliche ästhetische und Einrichtungsanforderungen.

^{EN} The result of a continuously evolving aesthetic and technique, Steel creates a light, floating design on two slim steel legs. A solid frame supports an innovative bed base that does not extend beyond the mattress. This leaves the perimeter free of any unnecessary structural elements, making it easy to clean and leaving you to make full use of the bedroom space. A range of free-standing headboards fitted flush to the mattress, plus a selection of imposing wall-mounted headboards you can accessorise ensure every aesthetic preference is honoured in your interiors.

^{FR} Fruit d'une évolution esthétique et technique en constante évolution, Steel se démarque par ses solutions légères et suspendues sur deux pieds fins en acier, qui lui assurent une stabilité totale. Un cadre solide soutient un sommier en retrait par rapport au matelas: le périmètre du lit étant entièrement dégagé de tout encombrement inutile, les mouvements dans l'espace de la chambre à coucher, ainsi que son nettoyage, sont facilités. Un système de têtes de lit à fleur du matelas, autoportantes ou de grandes têtes de lit murales, solutionnent toutes les contraintes esthétiques et d'intérieur.
