Wardrobe

^{IT} La superficie scandita dal ritmo irregolare delle fasce in vetro e l'assenza di maniglie eliminano la percezione dell'armadio e danno vita a un volume che diventa elemento di architettura d'interni. L'apertura con una leggera pressione della mano grazie a un sistema brevettato ne rende inaspettata la fruizione. Le fasce in vetro, personalizzabili singolarmente, offrono infiniti mood cromatici e una libertà espressiva senza eguali. La sua modularità permette una progettazione di serie della larghezza ogni 1,5 cm.

^{ES} La superficie recalcada por el ritmo irregular de las franjas de cristal y la ausencia de tiradores eliminan la percepción del armario y dan vida a un volumen que deviene elemento de arquitectura de interiores. La apertura con una ligera presión de la mano gracias a un sistema patentado vuelve inesperada su utilización. Las franjas en cristal, individualmente personalizables, ofrecen infinitos moods cromáticos y una libertad expresiva sin igual. Su modularidad permite proyectarlos de serie con un ancho personalizado cada 1,5 cm.

^{DE} Die Oberfläche, die vom unregelmäßigen Rhythmus der Streifen aus Glas unterteilt wird und keine sichtbaren Griffe aufweist, sieht so gar nicht nach Kleiderschrank aus und erweckt viel mehr ein Element der Innenarchitektur zum Leben. Das patentierte System, das die Öffnung durch einen leichten Druck der Hand gestattet, macht seine Nutzung un-erwartet. Die Glasstreifen gewähren vollkommene Ausdrucksfreiheit dank unzähliger Farbstimmungen. Die Modularität schließlich gestattet serienmäßig eine individuelle Wahl der Maße im Abstand von 1,5 cm.

^{EN} The irregular rhythm of the glass bands on its surface and an absence of handles eliminate the perception of the wardrobe and create a volume that becomes an interior architecture element. Thanks to a patented system, a slight pressure of the hand opens the doors almost unexpectedly. Glass panels you can customise individually make for infinite chromatic moods, and leave all the space you need for free creative expression. The modular build means the unit can be designed in standard widths in increments of 1.5 cm.

^{FR} La surface est cadencée par le rythme irrégulier des bandes en verre et l'absence de poignées, qui éliminent la perception du placard et donnent vie à un volume qui devient élément d'architecture intérieur. L'accès au placard est inattendu: un système breveté permet son ouverture d'une légère pression de la main. Les bandes en verre, personnalisables individuellement, offrent d'innombrables nuances chromatiques et une liberté d'expression inégalée. Sa modularité permet une conception en série de la largeur tous les 1,5 cm.

Vetro lucido

EN Polished glass / ES Cristal brillante / FR Verre brillant / DE Glas poliert

Il vetro LAGO cattura lo sguardo con una nuova esperienza del colore, reso vivo, profondo e mutevole al variare delle condizioni della luce. Rigorosamente perfetto, mantiene inalterata attraverso il tempo la propria bellezza. Il vetro ha doti intrinseche di igienicità, facile da pulire in quanto non assorbe lo sporco e le macchie e temperato, ovvero trattato termicamente per ottenere una elevata resistenza all'urto, al graffio e al calore. Viene verniciato all'acqua ed è un materiale riciclabile al 100%.

LAGO glass captures the eye with a new experience of colour, made brilliant, deep and changeable according to light conditions. Rigorously perfect, it preserves its beauty unaltered over time. LAGO glass has intrinsic hygienic properties, it is easy to clean since it does not absorb dirt or stains and it is tempered, that is to say temperature-treated in order to obtain higher resistance to shocks, scratches and heat. It is painted with water-based colour and is a 100% recyclable material.

El vidrio LAGO cautiva la mirada con una nueva forma de vivir el color, vuelto vivo, profundo y cambiante al variar las condiciones de luz. Rigorosamente perfecto, mantiene inalterada en el tiempo su belleza. El vidrio tiene características intrínsecas que lo hacen un material limpio: es fácil de lavar ya que no absorbe la suciedad ni las manchas, y con el templado es tratado térmicamente para obtener una alta resistencia a los golpes, las ralladuras y el calor. Está barnizado al agua y es un material 100% reciclable.

Le verre LAGO accroche le regard avec une nouvelle expérience de la couleur, rendue vive, profonde et changeante en fonction des variations lumineuses. Rigoureusement parfait, il conserve une beauté inaltérée à travers le temps. Le verre a des qualités hygiéniques intrinsèques: il est facile à nettoyer, car il n'absorbe ni la saleté ni les taches, et est trempé, c'est-à-dire traité thermiquement pour renforcer sa résistance aux chocs, aux rayures et à la chaleur. Verni à l'eau, ce matériau est 100 % recyclable.

Das LAGO-Glas lenkt den Blick mit einem neuen Farberlebnis auf sich, das sich Stunde um Stunde mit den Verhältnissen des Lichts als lebendig, tiefgründig und veränderbar erweist. Auf perfekte Art und Weise behält es strengstens seine Schönheit, die sich im Laufe der Zeit kein bisschen verändert. Das Glas verfügt über die einmalige Gabe der Reinheit. Es ist leicht zu reinigen, da es keinen Schmutz und keine Flecken aufnimmt; es ist für eine höhere Resistenz Stößen, Kratzern und Hitze gegenüber temperiert bzw. wärmebehandelt. Es wird mit Farben auf Wasserbasis gestrichen und ist ein 100%ig recyclefähiges Material.
