CONFORMITY TO SAMPLE

Conformity to the sample should not be understood in an absolute sense since there are margins of tolerance due to product variations (colors, materials, sizes) or caused by environmental factors (light, humidity, etc.). In case of completion of the order at a later time, perfect equality of colors and/or coatings between the original composition and the additional elements is not guaranteed.

N.B.: reproduction of colors on paper may show slight color differences from the originals.
