Ikonische
Konzepte

Die Designer von kaschkasch Cologne geben diesem puristischen Tisch ganz bewusst einen leichten Look. Der größte Teil der Massivholzplatte des FERRO versinkt in dem leicht zurückspringenden Rahmen. Eine minimale Fuge lässt die Tischplatte scheinbar schweben.

The designers from kaschkasch Cologne deliberately give this purist table a light look. Most of the solid wood top of the FERRO sinks into the slightly recessed frame. A minimal joint makes the table top seem to float.

↑ HIDE SURFACES AND DIMENSIONS

Board-glued ASCO table tops are made of individual continuous 8-15 cm wide solid wood slats glued together lengthwise. The woods are carefully sorted and selected, creating a naturally balanced character and giving the solid wood table top its harmonious overall appearance. Viewed from the front, alternating horizontal and vertical annual rings are visible, which show an attractive wave pattern.
